We extend sympathy to the bereaved ones.

Judge Grants Habeas Corpus

Showpeople Rearrested However and Brought Here to Answer Charges of Beating Board Bill

A news report from Columbia, gives the following account of the proceedings in the Allen-Krumpetz case at that place: Judge Turner this morning granted a writ of habeas corpus in a case of the state vs J. H. Krumpetz and wife Margaret Krumpetz charged with skipping and refusing to pay a board bill at Lawrenceburg. The warrant was sworn out Friday at Lawrenceburg by Andrew Allen, a negro boarding house keeper, and was brought here Friday night by Deputy Sheriff Lilburn Davidson for service on Mr and Mrs Krumpetz, with the expectation of taking them back to Lawrenceburg to answer the charges.

Mr and Mrs Krumpetz are white and are very pleasant and have the appearance of having been in better circumstances than they claim here. They have been handling a negro minstrel troupe through this section and when they reached Lawrenceburg they claim to have become stranded, the receipts being inadequate to pay their expenses. They claim they notified the Co. of their financial straits, advising the members to go to Florence where the troupe was advertised, and get what they could out of the performance, while Mr. and Mrs. Krumpetz started back to their home in the East.

The negro, Allen, claims that Mrs Krumpetz came to him and made the arrangements for seven of the troupe stating that she would see that the bill was paid, and this was not done, and that he is yet unpaid for the board and lodging of the seven members of the minstrel troupe while it was in the city of Lawrenceburg.

W. C. Salmon represented the defendant in the case, and the prosecutor was represented by W H Lindsey an attorney of Lawrenceburg. On the habeas corpus hearing before Judge Turner, the Krumpetz were released, the Judge ruling that on the prosecutors own statement defendants were not criminally liable for the failure of their employees to settle their board bills. Immediately however a new warrant was sworn out and the parties rearrested and brought back to Lawrenceburg, in spite of a verbal order from the Judge that they be released.

On a hearing at Lawrenceburg Monday the defendants were again released but were again arrested on a warrant from (Laury County for an unpaid board bill at Mt Pleasant. At the time of going to press this hearing had not been finished, but it is likely they will be again released.

Club Women Plan Reform

Campaign Launched to Remove Disabilities of Married Women and Give Them Same Right to Control Their Own Property.

A great deal of interest is already being manifested throughout the state, among the club women especially, in the campaign that has recently been inaugurated by the Tennessee Federation of Women's Clubs in the interest of better laws regarding the property rights of married women.

This movement has nothing to do with suffrage and is strictly non political, men and women of all persuasions in all parts of the state having endorsed this effort on the part of the leading women of the state to remove the disabilities of married women and to give them the same right to control their own property and the same right to make contracts and agreements as if they were not married.

It is interesting to note that some time prior to the activities on the part of the Tennessee Federation of Women's Clubs the State Bar Association at its meeting in Chattanooga in 1910 passed a resolution saying:

"The disabilities of married women should be removed by a general statute giving them the same rights to contract as men. The disabilities of married women are evaded by the intelligent business men of the country and they stand as mere barriers erected in the past to the expeditious and proper handling of business transactions. They afford the married women no real protection except when such protection is neither needed nor is consistent with justice."

This strong resolution was presented by Judge Julian C. Wilson, of Memphis and its adoption was moved by Judge W. G. M. Thomas of Chattanooga. Mrs. Caldwell, chairman of legislation, Tennessee Federation of Women's Clubs, recently sent out a letter to the presidents of the Federated Clubs of Tennessee asking that this subject and the article "Look at Tennessee," which appeared in the December number of the Delineator, be discussed at the next meeting of their clubs.

While the majority of the clubs of the state have not had meetings since this letter was received, those who have discussed it have expressed a great interest in the success of the movement and will work in the interest of a bill which it is proposed to introduce in the next legislature which will largely clear up the situation.

The Review Club in Nashville, at its last meeting, heard Mrs. Caldwell's letter read and the members individually expressed their interest and assured Mrs. Caldwell of their co-operation in her efforts. Other clubs of the state have also discussed the matter favorably.

Senator-elect Robert A. Elkins, of Dresden, Weakley county, was in the city the past week and when asked if he had considered the matter of changing the laws of Tennessee concerning the right of married women, said:

"The ladies in our section are talking about this and of course I will have to get posted before the legislature meets. When the good ladies agitate a question it means that something will be done and while I have not gone over the matter I do not doubt but that they will get what they want."

New Railroad For Middle Tenn.

Line Will Connect Lawrence and Wayne Counties

NASHVILLE Tenn. Dec. 2.

That Middle Tennessee is to have a new railroad opening up a vast field for timber and mineral development and an agricultural section for timber and mining development and an attractive agricultural section for emigrants is the announcement made at the Industrial Bureau in the authorized statement that surveys have been completed for grading the road bed of the Tennessee Valley Iron and Railroad Company, which proposes to construct, with the co-operation of the Louisville & Nashville Railroad, a new line connecting Iron City in Lawrence County, with McGlamery's Stand, in Wayne County. That Nashville will be the headquarters of this new road is equally an interesting and important announcement by the projectors of the enterprise.

HEMETITE DEPOSITS

The territory which the road will traverse is that for so long traversed by the late Col J B Killebrew, where it was stated that a very fine quality of hemetite ore and in large quantities was to be found. The promoters of the movement also declare that the timber and farm lands of that section comprise an additional splendid source of material development. The Tennessee Valley Company owns a 72,000 acres of timber and iron ore lands in this section and expects to begin as soon as possible to promote a general development of their resources. Among the plans considered is the construction of a wood chemical plant of a capacity of one hundred cords of wood per day, which estimates say, will produce 4,500 bushels of charcoal, 2,500 pounds of acetate of lime and 1,500 gallons of wood alcohol.

WILL SELL LAND

As fast as the timber is removed from the land it is proposed to sell off the lots of from 50 to 150 acres and every effort will be made to encourage agricultural development along lines. A land company is proposed to be formed for the particular purpose, of marketing the cut-over lands. It is also proposed to build a new town to be known as Cottonwood, two miles north of McGlamery's Stand and ten miles south of Waynesboro, the county seat. It is planned to have the road completed and in operation by the first of July next, and work on grading the road bed has been begun by Lacy McDowell & Co., contractors of Brentwood. The territory contemplated by the completed road as projected will comprise 400,000 acres of land.
